

HEMATITE TOWNSHIP RESIDENTS

I am writing this letter on the topic of blight, excessively in my opinion. It is unfortunate that because of nonaction or little action of a few residents in our community. I have tried to motivate people to get some things cleaned up by verbally communicating to offenders that we can no longer tolerate the blight some residents have accumulated. Some have chosen to take advantage of the kindness shown to them in allowing them to clean up. Others have not. Now we are at the closing days of summer and if nonaction is the choice that is made fines will be implemented. We have a beautiful town and your neighbors are holding you responsible. Please take responsibility for your property, take pride in your community, show some respect for your neighbors and eliminate blight.

Township Supervisor
