

We are here today to address the concerns of our residents due to a post on facebook that an officer of our fire department posted recently. First and foremost I want to assure our residents that post does not reflect in any way how the Amasa Hematite Volunteer Fire Department feels. We as a Township and fire department have and always will conduct our support of our residents with no bias of color, race, religion or opinions. We view everyone as one race and we are all equal. I know there are a lot of concerns out there but again we want to reassure all of you that we are here to serve and protect our residents with NO bias what so ever!
